Subject: Opinion of MS Settlement

Dear Judge Kollar-Kotelly,

I would like to add my voice to those who are against the current proposed settlement in the antitrust case against Microsoft.

I feel the proposal does little to either redress past transgressions that Microsoft has made or to meaningfully prohibit monopolistic behavior from Microsoft in the future. The measures outlined in the settlement are not realistically enforceable and subject to manipulation and interpretation.

Consumers and developers alike will ultimately benefit from more stringent action being taken against Microsoft. Please take this into account when you make your final decision.

Thank you for your patience and understanding.

Respectfully,

--Spencer Grey, President
